ABSTRACT

This summary of data on adult basic education has been compiled from annual reports filed with the U.S. Office of Education by each State, the District of Columbia, and participating outlying areas. The report presents statistics on adult basic education enrollments, student characteristics, completions, separations, teachers, classroom facilities, and inservice training. Differing State laws on the collection of data prevented some States from reporting specific items: each table so affected shows the total enrollment, a nonclassified total, and a total of those enrollees whom the States could classify by specific category. FOREWORD

This summary of data on adult basic education has been compiled from annual reports filed with the U.S. Office of Education by each State, the District of Columbia, and participating outlying areas. It is the fifth in a series of annual reports based upon the programs sponsored by Public Law 91-230, as amended.

Each report in the series presents statistics on adult basic education enrollments, student characteristics, completions, separations, teachers, classroom facilities, and inservice training. This publication includes a summary table covering fiscal years 1968 through 1972 and 16 detailed tables on fiscal year 1972 programs (from July 1, 1971, through June 30, 1972).

Differing State laws on the collection of data prevented some States from reporting specific items; each table so affected shows the total enrollment, a nonclassified total, and a total of those enrollees whom the States could classify by specific category.

This publication was prepared by the Adult and Vocational Education Surveys Branch of the National Center for Educational Statistics with the cooperation of the Division of Adult Education (DAE) of the Center for Adult, Vocational, Technical, and Manpower Education. Key to the development of this publication was the assistance of Paul V. Delker, Division Director of DAE; Morris L. Brown, Chief, Program Development Branch; and John L. Baird, Chief, Program Services Branch. The tables were prepared by Geneva C. Davis and typed by Elaine J. Price.

7.--Number of completions in adult basic education programs, by level of instruction and by region and State or other area: Aggregate United States, fiscal year 1972 18

8.--Number of separations from adult basic education programs, by reason and by region and State or other area: Aggregate United States, fiscal year 1972. 19

9.--Number of participants in adult basic education programs, by type of facility housing classes and by region and State or other area: Aggregate United States, fiscal year 1972 20

10.--Number of evening classes in adult basic education programs, by type of facility housing classes and by region and State or other area: Aggregate United States, fiscal year 1972. 21

11.--Number of daytime classes in adult basic education programs, by type of facility housing classes and by region and State or other area: Aggregate United States, fiscal year 1972. . . . 22

12.--Number of paid personnel in adult basic education programs, by type of employment, and by region and State or other area: Aggregate United States, fiscal year 1972 23

13.--Number of paid adult basic education personnel and full-time equivalents, by clock hours of training and type of position: Aggregate United States, fiscal year 1972. 24

14.--Number of participants in adult basic education programs, by their economic status, and by region and State or other area: Aggregate United States, fiscal year 1972 25

15.--Number of participants, by recognized educational achievements from adult basic education programs and by region and State or other area: Aggregate United States, fiscal year 1972. 26

16.--Number of participants, by recognized personal achievements from adult basic education programs and by region and State or other area: Aggregate United States, fiscal year 1972. . . . 27

17.--Number of adult basic education participants in programs located in urban or rural areas and the number waiting to enter a program, by region and State or other area: Aggregate United States, fiscal year 1972 28

INTRODUCTION

The adult basic education program administered by the U.S. Office of Education was established under the Adult Education Act of 1966. This program offers to persons 16 years[1] of age and older the opportunity to overcome English-language difficulties and attain reading, writing, and computational skills through the 12th-grade level of competence.

Adult basic education programs are developed and operated by each of the 50 States, the District of Columbia, and 5 outlying areas,[2] and are funded, in part, by grants from the Office of Education. The report is divided into two sections: (1) 5 years of summary statistics; (2) more detailed fiscal year 1972 statistics. The 5-year summary provides some historical perspective.

To participate in the program, each State or other area except the Trust Territory of the Pacific Islands must provide at least 10 percent of program costs and retain total responsibility for planning, supervisory services, teacher training, curriculum development, evaluation, and all essential services for enrollees through the 12th grade. In fiscal year 1972, each State, the District of Columbia, and five outlying areas conducted adult basic education programs. As a convention, together the United States and outlying areas are termed "aggregate United States."

The Office of Education also awards grants to schools, colleges, universities, and public and private nonprofit organizations for special projects and teacher-training projects. In some cases, the 1966 act authorizes direct contracts with institutions and organizations to develop new teacher-training techniques and special experimental and demonstration projects.

Most of the data in this report were compiled from the annual program report (see appendix) submitted by each State or other area. Data are presented for the aggregate United States, the administrative regions utilized by the Office of Education, and each State and five outlying areas. While attempts were made to compare fiscal year 1972 data with those of previous years, revisions in the 1972 report form limited the comparisons. Specifically, age, race, and sex are reported on a three-

---

1/On June 30, 1969, the minimum age limitation was reduced from 18 to 16 years by the Vocational Education Amendments of 1968, and was included in the collection instrument for the first time for fiscal year 1971.

2/American Samoa, Guam, Puerto Rico, the Trust Territory of the Pacific Islands, and the Virgin Islands.

way matrix, with the youngest age group 16-24 in 1972 rather than 18-24 as before. This age-group change complies with amended legislation. Also changed were race or ethnic groupings and the definition of grade equivalents to the three instructional levels. Anyone analyzing trends should note these changes.

Although teacher-training and special projects are part of the adult basic education program activities, data were obtained from the approved grant awards, not from the annual report form.

Teacher-Training Projects

Fiscal year 1972 funds of $3,007,423 supported inservice and pre-service training opportunities for 23,600 teachers, teacher-trainers, counselors, paraprofessionals, and administrators. Eighteen national training grants were awarded. Ten grants were designed to increase the regional staff development capability.

The primary objective of national teacher-training projects was to provide the participants with current techniques and curriculums in teaching adult basic education students. Participants were involved in diverse kinds of institutes, including those designed for special population groups and teaching English as a second language. Projects were also conducted to improve the competencies of the correctional administrators and teachers and the supervisors of adult education curriculum specialists. Other adult education training efforts included a model curriculum for deaf undereducated adults, conducting a feasibility study of alternatives for the training of adult education teachers and administrators, developing a more positive leadership role for tribal education committees in the administration of Indian reservation adult education programs. Adult education systems for the future were examined in a series of regional "think-tank" sessions. The grantee was concerned with developing alternatives which would be responsive to the needs and nature of society in the 1970's and 1980's.

Special Projects

Ninety special experimental demonstration projects were awarded in fiscal year 1972 for a total of $6,991,771.

The major purpose of demonstration projects is to assist State agencies to develop more effective adult education programs by demonstrating innovative practices, systems, and materials on a pilot basis. Effective models and products are validated and disseminated to State and local agencies for local utilization as appropriate.

Public and private educational agencies, universities, and model cities agencies conducted special experimental demonstration projects in fiscal year 1972. Approximately 28,000 undereducated adults participaced in the demonstration projects. Priorities included projects designed to serve isolated ethnic groups, produce innovative curriculums and instructional materials, and demonstrate comprehensive coordinated approaches to the delivery of adult basic education services. Other grantees conducted projects designed to develop dissemination and utilization strategies in adult education, develop national priorities, demonstrate effective ways to use volunteers in adult basic education, and develop and operate an educational television approach to the delivery of adult education services.

National Advisory Council on Adult Education

The National Advisory Council on Adult Education was established under provisions of Public Law 91-230, as amended, title III of the Adult Education Act, section 310. The Council consists of 15 members, including a chairman and vice chairman, and operates through working committees. The Council advises the Commissioner of Education on general regulations and policy in the administration of the adult education title. The Council also advises the Office of Education on policies and procedures governing the approval of State plans, insures the coordination of adult education programs under the title, and examines other programs offering adult education activities and services. The legislative charge to the Council includes a review of the administration and effectiveness of adult education programs sponsored by the title, recommendations, and an annual report to the President. In 1972 the Council developed proposed legislative specifications for a new adult education act, which were incorporated in the Council's second annual report.

SECTION I

FIVE YEARS OF ADULT BASIC EDUCATION, FISCAL YEARS 1968-72

This section reviews adult basic education program statistics based upon data compiled from annual program reports for fiscal years 1968 through 1972. A total of approximately $260 million in Federal, State, and local funds was allocated to the program during this 5-year period as shown in table 1. Almost 75 percent of this total was from Federal sources. The nearly $194 million in Federal funds helped provide adult basic education services to more than 3 million participants over the 5-year period.

Several States were unable to classify all adult basic education participants in specific categories. Only those classified in specific categories were used in determining the percentages for this section. Therefore, caution should be used in interpreting data over the 5-year period.

The 1972 enrollment was nearly double that in 1968, as shown in table 1. Although four of the five annual enrollment figures represented increases over preceding years, the percent of change fluctuated substantially.

The number of women enrolled in the program have since 1968 made up at least 55 percent of the participants. In 1970 they represented 57 percent of the participants--an all-time high.

The 18-24 age group as a percent of the total shows an increase each year over the preceding year. The 35-44 and 45-54 age groups experienced the largest declines as a percent of the total enrollment. Some of the increase in the 18-24 age group derived from 16- and 17-year-olds being recognized as adults since 1971 and have been included in the 18-24 age group.

SECTION II

ADULT BASIC EDUCATION, FISCAL YEAR 1972

Statistics in this section were obtained from the Adult Basic Education program report for fiscal year 1972. Each State files its program report annually with the U.S. Office of Education (OE) through the appropriate OE Regional Office. A revised form, used for the first time in fiscal year 1972 for reporting program activities, made it necessary to change from the formats used in previous reports in this series for several tables appearing in this section.

A total of more than 820,000 participants were reported by all the States and 5 outlying areas during fiscal year 1972. This was an increase of nearly 200,000, or 32 percent, over the previous year. Four States--Texas with the highest enrollment, 82,651; California, with 70,472; South Carolina, with 63,458; and Florida, with 59,064--accounted for 34 percent of the participants.

The largest enrollment (277,673) was reported for the 16-24 age group, with the 224,603 reported for the 25-34 age group a close second. Together, these two age groups made up 61 percent of the 1972 participants. Enrollments diminished progressively among the older groups, with the smallest enrollment (23,405) recorded for those 65 and older (table 2).

Table 3 shows the numbers of participants in different race or ethnic groups from those used in previous years. The last column, titled "others" and numbering 323,800, includes non-Spanish-surnamed whites and any other participants that could not be classified elsewhere.

Females, for the second consecutive year, represented 56 percent of the total participants. New York, with 82 percent of its participants females, had the highest rate, while Massachusetts, with 42 percent, had the lowest (table 4).

Since table 5 was generated from a three-way matrix on the report form, it shows national totals only by race or ethnic group, age, and sex. Those participants who were not reported by age or sex are shown as unclassified.

The instructional levels appearing in tables 6 and 7 have been redefined on the revised (1972) report form to conform with census data, which defines the beginning level as equivalent to grades 1-4, the intermediate level equivalent to grades 5-8, and the advanced level equivalent to grades 9-12. This is a major change particularly at the advanced level; the former equivalents were respectively grades 1-3, 4-6, and 7-8.

Table 7, showing completions for each level of instruction, has column totals but no line totals since it was impossible to determine how many if any participants were counted in more than one level. Although column totals are shown, they may also contain duplications.

More people separated from the program for unknown reasons (49,285) than for any one of the known reasons. The 38,724 whose reason for separation was that they had met their personal objectives was the highest number among the known reasons listed in table 8. It should be noted that many States reported participants with multiple reasons for separation.

About 53 percent of the participants attended classes in school buildings during fiscal year 1972. The elementary and junior high school buildings together were the facilities most frequently used, providing classroom space for 216,891 adult basic education participants. High schools were next, providing space for 179,310 participants, followed by learning centers, providing space for 154,316 (table 9).

There were far more evening classes (44,250), shown in table 10, than daytime classes (14,658), shown in table 11. Although most of the adult basic education classes were offered in the evenings, learning centers offered twice as many during the day as they did in the evenings.

The 25,952 teachers (table 12) for 820,514 students in fiscal year 1972 represented an average of 31.6 students per teacher. This average was considerably higher than the 28.4 students per teacher in fiscal year 1971. The 59,273 classes for this total enrollment averaged 13.8 students per class, down from the 1971 average of 20.0 students per class. These two factors indicate that adult basic education teachers were, on the average, teaching more classes with fewer enrollees in 1972 than in the previous year.

Of the 36,240 adult basic education personnel, only 25,950 were reported to have received training in 1972. Of those receiving training, 72 percent received 16 hours or less of training and only 10 percent received 41 hours or more during fiscal year 1972. Of the teachers, who comprised 72 percent of the total personnel, 75 percent received training (table 13).

Table 14 shows that 261,128 participants were employed, 159,018 were unemployed, and 83,110 were receiving public assistance. These three totaled only 503,256 participants, thus leaving over 300,000 for whom economic data were not reported. Therefore, any analysis of data in this table would be questionable.

There were 260,519 participants reported in fiscal year 1972 as having upgraded their educational level by receiving an eighth-grade diploma, entering high school, passing the General Education Development test, graduating from high school, or enrolling in other education as a result of having been enrolled in an adult basic education program (table 15). Additional achievements are indicated in table 16.

Adult basic education programs in urban communities, those with a population of 100,000 or more, enrolled 321,667 participants; and rural communities, those with a population of 2,500 or less, enrolled 123,614 participants. The responses to these two types of community information totaled 445,281, which is only 54 percent of the total number of participants (table 17).

In the following tables, "NA" indicates data not available.

TABLES

Summary, Fiscal Years 1968-72

Detail Tables, Fiscal Year 1972

APPENDIX

Annual Report Form for
Adult Basic Education Programs

APPENDIX

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
WASHINGTON, D.C. 20202

PERIOD COVERED		FORM APPROVED O.M.B. NO. 51-R0588
FROM	TO	
STATE		DATE OF REPORT

ADULT EDUCATION ANNUAL PROGRAM REPORT

(Adult Education Act of 1966, Title III, P.L. 91-230, as amended)

INSTRUCTIONS

The principal purpose of the report is to allow States to make better use, for planning purposes, of information found in the five tables. The report has several other purposes at the Federal level. It serves the Office of Education by providing a standardized data-collection format for use by all States. The collected information is used to publish reports and respond to inquiries. More importantly, the report is used as a program tool for the Office of Education to assess the impact of adult education at the State, Regional and National levels. Such information provides a basis for changes in National policy, redirection of resources, and provision of various forms of assistance to States.

The first table is concerned with various characteristics of the population served, the second table with instructional levels and participant separations, the third table with number of participants by location of classes and number of day and evening classes by location. The fourth table is related to staffing patterns of paid State and local personnel and the amount of program-related training in which they are participating. The last table is concerned with impact of the adult education program.

The new alignments of data in the table permit the State Administrator to look at the overall performance of the State program. For this report to be of maximum value to both State and Federal program officials it is better that figures which are considered unreliable not be included in the report. Soundness of data is preferred over total completion of the report. *(Where no reliable figures are available, the appropriate spaces in the reporting tables should be lined through.)*

To make the best possible use of this information system the State Administrator should insist upon timely and accurate reporting of data from local jurisdictions. For Federal purposes, a signed original and four copies of the report should reach the HEW Regional Office no later than September 1.

TABLE 1. NUMBER OF PARTICIPANTS BY RACE, SELECTED ETHNIC GROUPS, AGE AND SEX

AGE	AMERICAN INDIAN		NEGRO/ BLACK		ORIENTAL		SPANISH-SURNAMED						OTHER INDIVIDUALS NOT INCLUDED IN COLS. (b) thru (m)		TOTAL
							PUERTO RICAN		MEXICAN AMERICAN		OTHER				
(a)	Male (b)	Female (c)	Male (d)	Female (e)	Male (f)	Female (g)	Male (h)	Female (i)	Male (j)	Female (k)	Male (l)	Female (m)	Male (n)	Female (o)	(p)
1. 16-24															
2. 25-34															
3. 35-44															
4. 44-54															
5. 55-64															
6. 65 plus															
7. TOTAL															

TABLE 2. PARTICIPANT PROGRESS AND SEPARATION DATA BY INSTRUCTIONAL LEVEL

PART A. NUMBER OF PARTICIPANTS

INSTRUCTIONAL LEVEL (a)	NUMBER STARTED AT EACH LEVEL (b)	NUMBER STARTED AT EACH LEVEL AND COMPLETED THAT LEVEL (c)	NUMBER STARTED AT A LOWER LEVEL AND COMPLETED A HIGHER LEVEL (d)	NUMBER SEPARATED FROM EACH LEVEL (e)
1. Beginning				
2. Intermediate				
3. Advanced				
4. TOTAL				

PART B. REASONS FOR SEPARATION *(Give the number of separations)*

1. To take a job *(Unemployed when entered program)*		8. Because of child care problems	
		9. Because of family problems	
2. To take a better job *(Employed when entered program)*		10. Because of time class/program is scheduled	
3. To enter another training program		11. Because of class/program termination	
4. Met personal objective		12. For other known reasons	
5. For lack of interest		13. For unknown reasons	
6. Because of health problems		14. TOTAL	
7. Because of transportation problems			

OE FORM 3058, 3/72 REPLACES OE FORM 3058, 9/68, WHICH IS OBSOLETE

TABLE 3. NUMBER OF PARTICIPANTS AND NUMBER OF DAYTIME AND EVENING CLASSES BY TYPE OF LOCATION

LOCATION OF CLASSES (a)	NUMBER OF PARTICIPANTS (b)	NUMBER OF DAYTIME CLASSES (c)	NUMBER OF EVENING CLASSES (d)
SCHOOL BUILDING: 1. a. Elementary/Junior			
b. Secondary			
c. College/Junior College/ Technical Institute			
2. Learning Center			
3. Correctional Institution			
4. Hospital			
5. Work Site			
6. Other Locations			
7. TOTAL			

TABLE 4. NUMBER OF PAID PERSONNEL, BY LOCATION AND TYPE OF EMPLOYMENT, AND BY AMOUNT OF TRAINING FOR ADULT EDUCATION POSITION

(NOTE: Specify the various formulas or methods used in each of the categories. Use a separate sheet of paper and attach.)

ORGANIZATIONAL PLACEMENT AND TYPE OF JOB PERFORMED (a)	PAID ADULT EDUCATION PERSONNEL					
	TOTAL NUMBER OF PERSONNEL (b)	EQUIVALENT NUMBER OF FULL-TIME PERSONNEL (c)	AMOUNT OF STATE AND/OR LOCAL TRAINING *(In clock hours)*			
			NUMBER TAKING 1-16 HOURS (d)	NUMBER TAKING 17-40 HOURS (e)	NUMBER TAKING 41 OR MORE HRS. (f)	NUMBER TAKING NO HOURS (g)
1. State Administrative and Supervisory Personnel						
2. Local Administrative and Supervisory Personnel						
3. Local Teachers						
4. Local Counselors						
5. Local Paraprofessionals						
6. TOTAL						

TABLE 5. STATE ADULT EDUCATION PROGRAM IMPACT DATA

PERSONS WHO-	NUMBER OF PERSONS	PERSONS WHO-	NUMBER OF PERSONS
1. Are enrolled in an urban ABE Program *(Community population over 100,000)*		11. Enrolled in other education/training program *(Employee development, college, business or technical institute, correspondence, other Federal, State or local manpower program as a result of experience in program)*	
2. Are enrolled in a rural ABE Program *(Community population under 2,500)*			
3. Are enrolled in program who are employed			
4. Are enrolled in program who are unemployed		12. Were removed from public assistance rolls	
5. Are enrolled in program who are receiving public assistance		13. Obtained jobs as a result of experience gained in program	
6. Are on waiting lists to enter program		14. Changed to or were upgraded to a better job as a result of experience in program	
7. Achieved eighth grade diploma through program		15. Registered to vote for the first time	
8. Enrolled in high school diploma program after completing ABE Program		16. Received U.S. citizenship	
9. Passed general education development test		17. Received driver's license	
10. Graduated from high school after starting in ABE Program		18. Received training in completing income tax forms	
NAME OF STATE DIRECTOR *(Type)*		SIGNATURE OF STATE DIRECTOR	

INSTRUCTIONS FOR COMPLETING
ADULT EDUCATION ANNUAL PROGRAM REPORT

(Adult Education Act of 1966, Title III, P.L. 91-230, as amended)

(OE FORM 3058, 2/72)

TABLE 1. Reports the population that is being served by adult education classes in the State with Federal, State or local funds under P.L. 91-230. It should include participants from other Federal programs such as Manpower and WIN for whom any direct services are being provided at clearly additional cost to the program *(e.g., when an influx of 40 WIN participants would necessitate operating 2 or 3 extra classes)*. Every participant that completed 12 or more hours of instruction during the fiscal year July 1 through June 30 should be included in this table.

A participant's age is to be reported as age at time of first class attended during the fiscal year.

The total number of adult education participants reported in Table 1, Line 7, of Total Column (p) should agree exactly with the total figure reported in Table 2, Part A, Line 4, Column (b).

TABLE 2. Combines important data on starting levels, completions, and separations. As with Table 1, only participants who attended 12 or more hours of instruction during the fiscal year should be reported. The total figure reported in Table 2, Part A, Line 4, Column (b) should agree exactly with the total reported in Table 1, Line 7, of Total Column (p).

Students who left the program during the fiscal year because they completed the intermediate or advanced levels should not be counted as separations, but as completions. Count separations one time only. For example, a female who separates because she has a baby-sitting problem may be said to have a family problem. However, it is more accurate and useful to report her separation once under "child care problems."

Reasons for separations have been delineated to show "positive" type reasons indicating certain program accomplishments, as well as problem-related reasons which may be amenable to State and/or Federal influence. For example, if health problems show up significantly in a given State as a reason for separations, the State administrator might encourage curriculum on personal health care, hygiene, and nutrition. The total figure reported in Table 2, Part A, Line 4, Column (e) should agree exactly with the total reported in Part B, Item 14.

Until such time as special definitions have been developed for measuring adult performance levels, "Beginning" level *(to conform with census data)* is equivalent to Grade 1-4. "Intermediate" is equivalent to Grades 5-8. "Advanced" is equivalent to Grades 9-12.

TABLE 3. Shows where participants attended classes and the number of day and evening classes by type of classroom location. As with Table 1, and Column (b) of Table 2, the State should report on every participant that completed 12 or more hours of instruction during the fiscal year.

"School Building" can be either public or private. For purposes of this report, junior high buildings should be classified as elementary.

"Learning centers," for purposes of the adult education program and this report, are adult instructional settings featuring (1) extensive use of programmed instruction, (2) flexible participant scheduling and attendance, (3) being open for extended periods of time and on a daily basis, e.g., 9:00 a.m. to 5:00 p.m. In cases where learning centers are found in any of the other types of locations listed, participants should be counted as attending learning centers not the other types.

"Correctional Institutions" can be Federal, State or local and include youth offenders as well as adults. Inmates are the only ones to be included in this category.

"Hospitals" can be Federal, State or local; mental institutions are included. Hospital in-patients and out-patients are the only ones to be included in this category.

"Work sites" can be public or private, as long as they are operating places of employment for the participants. If hospital or correctional employees are trained at their respective job locations, they would be counted under the "work site" category.

"All other locations" would include those that do not fit into one of the above categories. Church and storefront locations are among those that would generally fall into this category.

TABLE 4. Requires data on numbers of personnel and their full-time equivalence for five different personnel categories. It also provides for indication of the amount of State and/or local pre-service or in-service adult education program-related training received by paid personnel during the fiscal year.

In Column (b) count one time only each employee being paid out of Federal, State or local adult education funds. Each employee should be placed in the personnel category where he does most of his work. "Administrative and Supervisory personnel" includes teacher trainers. "Paraprofessionals" includes teacher/classroom aides.

"Equivalent Number of Full-time Personnel," Column (c), should be stated according to a formula or method used in determining full-time employment in each of the different job categories.

"State or Local Training" is not to include any "309(b) and (c)" funded training. It should include other training that is clearly related to the program effort under the personnel categories listed above. A "clock hour" refers to a period of instruction of at least 50 minutes in length.

TABLE 5. Provides for various impact information concerning the State adult education program. Supply accurate data if it is available on a Statewide basis for any of the listed items.
